

# 绘制带填充色的圆角箭头标签

## 1. 简述:

UI 设计需要在列表中展示该标签。 分三期

## 2. 实现:

```
- (void)setUp{
    UIImage *image = [UIImage imageNamed:@"dd_biaoqian"];
    CGFloat top = 3; // 顶端盖高度
    CGFloat bottom = 3; // 底端盖高度
    CGFloat left = 3; // 左端盖宽度
    CGFloat right = 10; // 右端盖宽度
    UIEdgeInsets insets = UIEdgeInsetsMake(top, left, bottom, right);
    // 指定为拉伸模式，伸缩后重新赋值
    image = [image resizableImageWithCapInsets:insets resizingMode:UIImageResizingModeStretch];
    self.image = image;
    [self addSubview:self.titleLabel];
    [self.titleLabel setLayoutTopFromSuperViewWithConstant:0];
    [self.titleLabel setLayoutLeftFromSuperViewWithConstant:2.0f];
    [self.titleLabel setLayoutBottomFromSuperViewWithConstant:0];
    [self.titleLabel setLayoutRightFromSuperViewWithConstant:8.0f];
}
```
