

TableHeaderFooterView 修改背景色

1. 简述:

Tableheaderfooterview,设置背景色如白色后部分系统9系统, 始终改变不了
解决如下:

```
self.backgroundView = [[UIImageView alloc] initWithImage:[self changeColorToImage:[UIColor whiteColor]]];
#pragma mark private methods
- (UIImage *)changeColorToImage:(UIColor *)color{
    UIImage *image;
    CGRect rect = CGRectMake(0, 0, 10, 10);
    UIGraphicsBeginImageContext(rect.size);
    CGContextRef context = UIGraphicsGetCurrentContext();
    CGContextSetFillColorWithColor(context, color.CGColor);
    CGContextAddRect(context, rect);
    CGContextFillPath(context);
    image = UIGraphicsGetImageFromCurrentImageContext();
    UIGraphicsEndImageContext();
    return image;
}
```
